# HYDROCARBONS IN ACTION

## Competition Details

Project Partner

Supported by

We hope you have had a lot of fun investigating the oil and gas industry and feel enthused to enter the Hydrocarbons in Action Competition.

We are looking for:

- A portfolio of your research, experiments and scientific investigation including for example: log books, photos, result posters, videos or a PowerPoint presentation.
- Details of the number of people involved and the number of hours spent investigating.
- A model oil platform: this can be made from K'NEX, Meccano, Zome, Paper, or anything else you chose!
- The only criteria are that your model must be no larger than 75cm (w) x 75cm (d) and be stable enough to hold the weight of your Lego helicopter for at least one minute.

The best Hydrocarbons in Action projects across Scotland will be invited to showcase and compete at the Celebration of Engineering and Science at the Glasgow Science Centre on Friday 8 June 2012. It's a great, action-packed day for over 50 clubs, with loads of hands-on activities and prizes! (We cover travel and, if necessary, accommodation expenses.)

**Closing Date for Entries: Monday 30 April 2012.**

Send or email a short video, PowerPoint or Word presentation to Melanie Riddell giving a brief outline of your clubs portfolio of research. Note – running your whole class as a club within normal school hours is fine. Don't worry if your project is unfinished at 30 April – a progress report and forward plan will suffice at this stage.

**Please email entries to:**
